NSTAY

NITROGEN MANAGEMENT AID

NSTAY is a nitrogen management aid that reduces loss of nitrogen due to denitrification, leaching and volatilization. NSTAY is formulated to keep nitrogen in the ammonium form in the root zone during the key growth stages of any crop.

ACTIVE INGREDIENTS:

Ca-Heteropolysacharides Cl.....	5.2%
Ca-Aminoethylpiperazine Cl	5.8%
Alkylaryl polyoxethylene glycols	22.0%
OTHER INGREDIENTS	<u>67.0%</u>
TOTAL	100.0%

KEEP OUT OF REACH OF CHILDREN

WARNING/AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

SHAKE WELL BEFORE USING

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals *Causes Skin Irritations *Harmful if Swallowed *Prolonged or Frequently Repeated Skin Contact May Cause Allergic Reactions

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read all directions for use carefully.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Container Reuse: Nonrefillable container. Do not refill or reuse this container. Triple rinse or pressure rinse promptly after emptying.

FIRST AID

If on skin: Rinse skin immediately with water. If swallowed: Immediately call a poison control center or doctor.

NOTICE

Read entire label. Use only according to label. Before using this product read Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies elsewhere on this label. If terms are unacceptable, return at once unopened.

GENERAL INFORMATION

NSTAY is formulated to use with urea, UAN solutions and animal waste. NSTAY is intended to be used as a supplement to a regular fertilizer program and may not, by itself, provide all nutrients required by crops and other plants. UREA: NSTAY may be used to treat dry urea prior to application to the field. Application of urea to the field is recom-

mended soon after treatment to provide the best results. In high temperatures and humidity conditions urea will become wet, urea treated with NSTAY may result in the fertilizer material becoming sticky. Should these conditions occur during mixing and application timing, a small amount of drying agent may be added to the blending process. When other fertilizer materials are added to the blend such as phosphate or potash, a drying agent will not be needed.

LIQUID FERTILIZERS: NSTAY may be mixed with liquid fertilizers such as aqua ammonia or other liquid Ammoniacal or urea nitrogen fertilizers. Liquid fertilizers containing high levels of phosphate should not be used with NSTAY. If pesticides are added to the tank mix in conjunction with liquid fertilizers a compatibility jar test should be performed prior to large scale application to the field.

LIQUID MANURES: NSTAY may be mixed with liquid animal manures, rate per acre is based on volume of liquid material applied. NSTAY may be applied to slurry pit or through an injection system as material is loaded into applicator.

APPLICATION RATES

UREA: Use NSTAY at the rate of 4 quarts (128 oz) per ton of urea treated in the blender.

LIQUID FERTILIZERS: Use NSTAY at the rate of 2 quarts (64 oz) per ton of liquid nitrogen fertilizer.

LIQUID MANURES: 5000 gallons and above use 24 oz of NSTAY per acre. Below 5000 gallons use 18 oz per acre.

TERMS AND CONDITIONS OF USE

If terms of the Warranty Disclaimer Inherent Risks of Use and Limitations of Remedies are not acceptable, returned unopened package at once to seller for a full refund of purchase price paid. Otherwise, use by the buyer or any other user constituent's acceptance of the terms under Warranty Disclaimer, Inherent Risks of Use and Limitations of Remedies.

WARRANTY DISCLAIMER

Willowood USA warrants this product conforms to the chemical description on the label and is reasonably fit for the purpose stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. TO THE EXTENT PERMITTED BY LAW, Willowood USA MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

INHERENT RISKS OF USE

It is impossible to eliminate all risks associated with the use of this product. Crop injury, lack of performance, and other consequences may result because of such factors as use of the product contrary to label instructions, abnormal conditions, presence of other materials, the manner of application, or other factors, all of which are beyond the control of Willowood USA or the seller. All such risks shall be assumed by the buyer.

LIMITATIONS OF REMEDIES

To the extent permitted by the law, the exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Willowood USA discretion, one of the following:

- Refund of purchase price paid by the buyer or user for product bought, or
- Replacement of amount product used

To the extent permitted by law, Willowood USA shall not be liable for losses or damages resulting from handling or use of this product. To the extent permitted by law, in no case shall Willowood USA be liable for consequential or incidental damages or losses. The terms of the Warranty Disclaimer, Inherent Risks of Use and Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent for Willowood USA or the seller is authorized to vary or exceed the terms of the Warranty Disclaimer or this Limitation of Remedies in any manner.
