ETHOFUMESATE 4SC

SUSPENSION CONCENTRATE

BENEFITS

- Selective herbicide for use in cool-season turf, sugarbeets and a variety of other crops
- Can be applied preemergent, pre plant incorporated or postemergent
- Excellent control of *Poa annua* and a wide variety of annual grasses and broadleaf weeds
- Outstanding product for the foundation of a resistance management program
- Excellent crop safety

Willowood Ethofumesate 4SC provides an excellent weed control foundation with multiple application options. When used in cool-season turf, Willowood Ethofumesate 4SC provides both pre- and postemergent control of *Poa annua*. In addition, Willowood

Ethofumesate 4SC also controls a wide variety of annual grasses and broadleaf weeds. When used in conjunction with RoundUp Ready® sugarbeets, Willowood Ethofumesate provides an excellent foundation for the development of a weed resistance management program.

Willowood Ethofumesate 4SC controls:

annual bluegrass
seedling wild oats
green foxtail
yellow foxtail
barnyardgrass
canarygrass
downy brome
common chickweed

common velvetgrass
seedling rattail fescue
volunteer barley
volunteer wheat
common vetch
large crabgrass

Outstanding Weed Control

Willowood Ethofumesate 4SC controls tough to get weed problems like annual bluegrass, mannagrass and seedling rattail fescue. When establishing new plantings of grass seed crops, count on **Willowood Ethofumesate** to control troublesome weed problems. Also rely on **Willowood Ethofumesate 4SC** on established stands of tall fescue, perennial ryegrass or bent grass.

Protecting the crop, a farmer's most important investment, is our number one goal. That's why only the finest grade of active ingredient is used to produce post patent crop protection chemicals manufactured by Willowood USA.
